

## [Akcansa - Waste Heat Recovery Plant](#) [1]

Akcansa is a cement company owned by Sabanci Holding and Heidelberg Cement Mediterranean Basin Holdings. It is the largest cement producer in Turkey. The cement industry is responsible for 5% of human based GHG emissions. 50% of these emissions arise from production processes, 40% from fuel consumption, 10% from electricity consumption and transportation. The Akcansa cement plant located in Canakkale constructed a waste heat recovery plant with 15.2 MW capacity which recovers waste heat as electrical energy.
