

## [First Post-Carbon Cities Stakeholders Workshop \[1\]](#)

### **Date:**

27 June 2014

### **Location:**

Congresplaats 1, 1000 Brussel, Belgium

[Event website](#) [2]

The aim of this first workshop is to gather for the first time those stakeholders representing organisations that are able to provide their perceptions of the future of cities in a post-carbon society and in that way will contribute to the development of a 2050 roadmap for EU post-carbon cities. A large part of this workshop will be dedicated to discussing questions via a World Café. The World

Café is a structured conversational process which aims to provide an open and creative conversation on a topic of mutual interest to surface their collective knowledge, share ideas and insights and gain a deeper understanding of the subject and the issues involved. A cafe ambience is created in order to facilitate conversation.

This workshop is organised by [Energy Cities](#) [3], [CEPS](#) [4], [FEEM](#) [5] and [Ecologic Institute](#) [6] in the framework of the POCACITO (Post Carbon Cities Outlook) project.
