

Milan Vision Building Workshop [1]

Date:

29 September 2014

Location:

Milan

The first POCACITO Workshop in Milan entitled *Initial Assessment & Vision Building* took place on 29 September. The workshop was hosted by Fondazione Eni Enrico Mattei (FEEM) with participation from an array of stakeholders representing the municipal environmental agency, an energy company, the national institute of urban planning, a transport consulting firm, a regional environmental organization, a financial development agency and the chamber of architects. The

workshop was successful in terms of gathering feedback on the Initial Assessment indicator data and data sources and in developing a vision of a post-carbon Milan in 2050. The eight stakeholders from Milan were motivated to engage in discussion and contribute their expertise throughout the day. The results of the first POCACITO workshop in Milan can be found [here](#) [2].
