

Litomerice Backcasting Scenario Workshop [1]

Date:

2 December 2014

Location:

Litomerice, Czech Republic

The backcasting scenario workshop was held in Litomerice on 2nd December 2014. Eight participants from local stakeholders developed scenarios how to reach the visions formulated during the previous POCACITO workshop.

The backcasting scenarios were developed for each of the vision topics. Participants tried to set

interim target for reaching their visions, the actions and measures suggested vary from very concrete suggestion valid only in the city context to more general instruments applicable in other context as well.
